Building Controls & Services, Inc. was selected by Slippery Rock University to implement a Guaranteed Energy Savings Act (GESA) Performance Contract.

Slippery Rock University is an 8500 student campus consisting of 40 buildings and over 2 million sq. ft. of space. The University that will be upgraded with Energy Conservation Measures that will reduce annual operating costs by approximately \$217,463 over the 15 year term of the contract, it is estimated that the University will save almost \$4.3 million.

The Project includes the following measures:

- University Wide Water Conservation Improvements
- Multiple Campus Sub-Meters (Electric, Gas, Water & Steam)
- Energy Efficient Motors and Variable Frequency Drives
- HVAC System Upgrades
- Web-Based Energy Management System Expansion/Upgrade
- Window Replacements
